

Zoster Eye Disease Study

Do You Have Eye Disease From Shingles?

You may qualify for the Zoster Eye Disease Study (ZEDS)* if you:

- ◆ had a rash from shingles over your eye
- ◆ have had certain types of eye disease from shingles affecting your cornea within the past year
- ◆ are 18 years old or older

What is the Zoster Eye Disease Study (ZEDS)?

ZEDS is a clinical trial investigating whether long-term treatment with a pill, Valacyclovir, will help reduce eye disease and/or chronic pain in patients with shingles affecting the eye. Talk to your eye doctor to learn more.

For more information, please contact:

Name: Lesly Renteria Phone # 805-503-1016

**ZEDS is funded by the National Eye Institute/NIH, with additional support from NYU Langone Medical Center*
